EXPERIENCE

Intern Web Developer | Oxmaint Dec 2023 - Recent - Remote

- Spearheaded the development and enhancement of web application interfaces, optimizing both client-side and server-side operations to boost functionality, usability, and system performance.
- Fostered a collaborative development environment, contributing to the team's success through code reviews, pair programming, and adherence to best coding practices.

Industry-Project EA SPORTS,Brainstation, Vancouver, BC June 2023

- Pioneered a social networking platform for gamers, enhancing community engagement and user interaction within the gaming ecosystem..
- Led development efforts, ensuring effective communication across disciplines and developing a user-friendly application.
- Showcased strong debugging and troubleshooting skills, contributing to project success, and utilized tools like GitHub and Figma for efficient teamwork and timely delivery.

PROJECT EXPERIENCE

Rental2Review- Github - [Link](#)

- Build a full-stack development skills by creating a comprehensive application integrating both front-end and back-end technologies, demonstrating proficiency in React, JavaScript, Node.js, MongoDB, and more.
- Overcame challenges in implementing a secure and efficient system for user authentication and data management, resulting in a robust application that handles user data securely and efficiently.
- Prioritized user experience by designing an interface using Tailwind CSS and React DOM, making event discovery and review processes seamless and engaging, potentially increasing user retention and satisfaction

Travel Choice - [Link](#)

- Focused on simplifying travel planning through an interactive and user-friendly interface, potentially improving the user's ability to make informed travel decisions.
- Demonstrated proficiency in a variety of modern technologies including React, Next.js, and Openlayers, showcasing the ability to integrate complex geolocation and mapping features effectively.
- Addressed the need for comprehensive and accessible travel data by designing a web application that amalgamates various data points into a single, seamless user experience

InStock - Github -[Link](#)

- Collaborative Development: Contributed to a team effort in creating a comprehensive inventory management system, showcasing effective collaboration and problem-solving skills.
- Technology Integration: Utilized a stack comprising React, Node.js, and MySQL, demonstrating the ability to implement and manage a full-stack application with complex database interactions.
- Operational Efficiency: Played a key role in simplifying and optimizing warehouse operations, potentially leading to significant cost savings and streamlined processes.

EDUCATION

BrainStation | Diploma, Web Development APR 2023 - JUNE 2023, VANCOUVER, BC

Kwantlen Polytechnic University | Diploma in General Studies, Major Business JAN 2016 - 2018, SURREY, BC

TECHNICAL SKILLS

Languages: HTML, CSS, SASS, JavaScript, TypeScript.

Technologies: React, Node.js, Express.js, MySql Database, MongoDB, JSON, User Authentication, Jwt Token, Git , GitHub, Jira, Agile Development, DOM, Web Api, Rest, Postman, Deployment - AWS, Azure, Render, Netlify, Software Design Patterns, Data movement/migration/upload,Jest Testing, Google Analytics.

Soft Skills: Problem-solving, Teamwork, Communication, Adaptability, Quickleaner.

CERTIFICATIONS

AWS Cloud Practitioner Essentials, Google Data Analysis Certificate(Coursera)
