## TECHNICAL SKILLS

---

Languages: HTML, CSS, SASS, JavaScript, TypeScript.

Technologies: React, Node.js, Express.js, MySQL, User Authentication, Jwt Token, Git, GitHub, Jira, Agile Development, DOM, Web Api, Deployment, Google Analytics.

## EXPERIENCE

---

### Industry-Project EA SPORTS,Brainstation, Vancouver, BC APR 2023

- Collaborated with a dynamic group of seven members to create an application that enhances social interaction among gamers.
- Played a significant role as a developer in crafting a user-friendly application, promoting effortless collaboration with data analysts, ux designers, and fellow developers.
- Utilized tools such as GitHub and Figma to enhance teamwork and project efficiency, resulting in the successful delivery of an innovative solution within an intensive time limit.

## PROJECT EXPERIENCE

---

**CardMute** – React, JavaScript, JSON Web Tokens, SASS, Node.js, Express.js, Knex.js, MySQL, Web API.

- Built a digital wallet web application from scratch to promote digital payments over plastic cards. The application includes customer information, authentication, balance, transaction history and more.

**Travel Choice** – React, JavaScript, Next.js, Openlayers, Geolocation.

- This project simplifies travel planning and exploration, offering a user-friendly web app with interactive maps, geolocation, and comprehensive data for better travel experiences and informed decisions.

**InStock** – React, JavaScript, SASS, Node.js, Express.js, MySQL, Knex.js

- As part of a five-person team, developed an inventory management system to efficiently oversee multiple warehouses, achieving a reduction in operational costs through simplification and optimization.

**Movies Lover** – HTML, CSS, Web Api, Axios

- Contributed to the hackathon project as a front-end developer, crafting a user-friendly web app using HTML, CSS, Web API, and Axios to facilitate movie searches based on keywords. Our collaborative efforts successfully integrated an external API to showcase relevant movie results.

**BrainFlix** – React, Sass, Node.js, Express.js, Axios

- Developed a full-stack app with RESTful API endpoints in Node, enabled video uploads, and maintained responsive design using React, SASS, and Flexbox. Collaborated on design and project structure

## EDUCATION

---

**BrainStation | Diploma, Web Development**

APR 2023 - JUNE 2023, VANCOUVER, BC

**Kwantlen Polytechnic University | Diploma in General Studies, Major Business**

JAN 2016 - 2018, SURREY, BC

## CERTIFICATIONS

---

Google Data Analysis Certificate(Coursera).
