EXPERIENCE

Intern Web Developer | Oxmaint *Dec 2023 - Recent - Remote*

- Engage in case study analysis and testing of web applications, providing critical insights to enhance functionality and user experience.Identify and resolve bugs, contributing to the maintenance and improvement of the web application's performance.
- Collaborate effectively within a team, interfacing with other developers, to ensure high-quality deliverables and adherence to best practices, resulting in improved system efficiency and supporting the company's growth

Industry-Project EA SPORTS,Brainstation, Vancouver, BC *June 2023*

- Collaborated with a diverse team of seven to develop a social interaction application among gamers, fostering cross-functional teamwork with data analysts, UX designers, and fellow developers.
- Led development efforts, ensuring effective communication across disciplines and crafting a user-friendly application.
- Showcased strong debugging and troubleshooting skills, contributing to project success, and utilized tools like GitHub and Figma for efficient teamwork and timely delivery.

PROJECT EXPERIENCE

Rental2Review - **Link**

- Build a full-stack development skills by creating a comprehensive application integrating both front-end and back-end technologies, demonstrating proficiency in React, JavaScript, Node.js, MongoDB, and more.

- Overcame challenges in implementing a secure and efficient system for user authentication and data management, resulting in a robust application that handles user data securely and efficiently.

-Prioritized user experience by designing an interface using Tailwind CSS and React DOM, making event discovery and review processes seamless and engaging, potentially increasing user retention and satisfaction

Travel Choice - **Link**

 -Focused on simplifying travel planning through an interactive and user-friendly interface, potentially improving the user's ability to make informed travel decisions.

- Demonstrated proficiency in a variety of modern technologies including React, Next.js, and Openlayers, showcasing the ability to integrate complex geolocation and mapping features effectively.

- Addressed the need for comprehensive and accessible travel data by designing a web application that amalgamates various data points into a single, seamless user experience

InStock - Github -**Link**

-Collaborative Development: Contributed to a team effort in creating a comprehensive inventory management system, showcasing effective collaboration and problem-solving skills.

-Technology Integration: Utilized a stack comprising React, Node.js, and MySql, demonstrating the ability to implement and manage a full-stack application with complex database interactions.

-Operational Efficiency: Played a key role in simplifying and optimizing warehouse operations, potentially leading to significant cost savings and streamlined processes.

EDUCATION

BrainStation | Diploma, Web Development   APR 2023 - JUNE 2023, VANCOUVER, BC

Kwantlen Polytechnic University | Diploma in General Studies, Major Business JAN 2016 - 2018, SURREY, BC

TECHNICAL SKILLS

Languages: HTML, CSS, SASS, JavaScript, TypeScript.

Technologies: React, Node.js, Express.js, MySql Database, MongoDB, JSON, User AUthentication, Jwt Token, Git , GitHub, Jira, Agile Development, DOM, Web Api, Rest, Postman, Deployment - AWS, Render, Netlify, Software Design Patterns, Data movement/migration/upload,Jest Testing, Google Analytics.

Soft Skills: Problem-solving, Teamwork, Communication, Adaptability, Quickleaner.

CERTIFICATIONS

AWS Cloud Practitioner Essentials, Google Data Analysis Certificate(Coursera)
